U.S. Design Patent No. 740,501 S

Electric / Belt Drive

**Upright, vertical coil** with 1/2-inch schedule 80 pipe is wrapped with a thick foil blanket insulation, delivering high efficiency and maintains constant temperature using Natural Gas or LP Gas

Industry-standard **flue outlet** for quick installation

**Pressure relief valve** protects the machine and user from thermal expansion

Improved **auto-tensioning** system maintains belt tension on the pump with a torsion bar for precise tension adjustment

**Triple banded belt** for more efficient power transmission

**Adjustable upstream detergent injection** ensures high-pressure sudsing for better cleaning

**Hotsy-designed Triplex pumps** carry a 7-year limited warranty

Same **footprint** as previous generation for easy upgradability

**Programmable Smart Control Automation** provides complete control over the machine's run time, auto start/shut down and time delay shut down functionality.

**Locking lid** prevents accidental removal of both panels around the belt and pulley

Concealed but accessible **Thermostat** reduces random user adjustments

Prewired to accept field installations of **remote controls**

Sleek side and front removable **panels** provide easy access to the entire washer for service & maintenance

**50-ft. length of high-pressure hose** for easy cleaning in a large working area
